Iwata Elem. PTA Communication

Issued by: Iwata Elem. School PTA Board **No.2**

Undoukai May 21,2023(Sun)

The athletic meet was scheduled for the 20th (Saturday), but was postponed for a day due to the rain, and was held the next day, 21st (Sunday).

It was sunny that day. It was the perfect day for the sports day. Despite the heat, everyone did their best. The winner is White team. We had the most memorable sports day.

Activities of PTA members

I hope the undoukai goes smoothly..

☆The PTA watched over us behind the scenes.

☆Before the undoukai: They set up cones and posters.

☆During undoukai: The guards at the main and east gates, organized the bicycle parking lot, made patrols, and inspected the toilets.

☆After undoukai: They picked up trash in the school grounds, collected ones, and cleaned the toilets.

To all the PTA and residents' association, thank you for your cooperation. The undoukai was held without any major problems.

Voices from Everyone

Thanks to the wristbands, congestion was eased, and even if my child moved and chased after me in a hurry, I was glad that it was to see.

Every year, I see children's performances and realize their growth. My child did not participate in the relay race, but I look forward to the relay races of older children every year.

Watching the interaction between President Asakura and Iwatako Yuru's character, Iwatan, made me smile and was really wonderful.^^

I was thrilled when all the students sang at the opening ceremony without masks. It's nice to have everyone together. It was great undoukai.

1st School Health Committee

『Take care of yourself and your friends

～Let's look at your heart with egogram～』

On June 12, 2023(Mon), from 14:00(5th period class), the 1st School Health Committee meeting was held for 5th grade students.

The theme is 『 Take care of yourself and your friends～Let's look at your heart with ego gram ~ 』 ①Notice your own good points, ②Notice the good points of others, ③To change yourself for the better. The children used egograms to think about how to behave in the future, along with the story of Ms. Mitsuzawa, a school counselor. 「I can't get along well with my friends...」「I don't have confidence when I compare myself to my friends...」 I asked 5th graders who are about to enter puberty, 「First, start by looking at your current state of mind. Let's go.」 he said with an easy-to-understand explanation, and it was impressive that the participating children listened with great interest.

Children Watching Team & Ao Patrol Team Report/Impressions

May 9(Tue)・June 7(Wed) Teachers, Ao Patrol team, PTA members, and PTA officers were divided into 5 teams and carried out joint crime prevention patrols.

Suspicious fires in parks in the Iwata school district and destructive spray from fire extinguishers installed on the roads have been occurring one after another.

One thing that caught my attention during this patrol was that there were a lot of abandoned bicycles left in the parking lot on the west side of sports park. We requested the Park and Green Spaces Division of Toyohashi City Hall to remove unusable vehicle and abandoned bicycles.

All the parks were well maintained, and I was glad that I could see the inside of the park from the road.

The neighbors were weeding while the children were playing, and it felt safe to have adults in the park.

Introduction of New Faculty Members

To the new teachers who have come to Iwata Elem. School, thank you!
